Yash Sumngal Jadhav

Frontend Developer | Full-Stack JavaScript Developer

6353616391 | yash43174@gmail.com | LinkedIn | GitHub | Ahmedabad, Gujarat

PROFESSIONAL SUMMARY

Frontend-focused full-stack JavaScript developer with hands-on experience building React interfaces and Node.js/Express APIs. Built and deployed QueueLess, a real-time queue management system using Socket.IO, MongoDB, JWT authentication, role-based authorization, REST APIs, and production environment configuration.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3
Frontend: React.js, Tailwind CSS, Vite, Responsive UI
Backend: Node.js, Express.js, REST APIs, Authentication, Authorization
Database: MongoDB, Mongoose

Core CS: Data Structures & Algorithms foundations, OOP fundamentals, API design

PROJECTS

QueueLess - Real-Time Queue Management System | *React, Node.js, Express.js, MongoDB, Socket.IO, JWT, REST APIs, Render* | Live Demo

- Built a full-stack queue management platform with separate user/admin flows, protected routes, queue creation, queue joining, token progression, and queue status management.
- Implemented real-time Socket.IO updates so admins receive new queue entries and users receive live token/status changes without page refreshes.
- Implemented JWT authentication with HTTP-only, Secure cookies, role-based authorization, duplicate active-entry prevention, and controlled admin access.
- Deployed frontend and backend to Render, connected MongoDB Atlas, and configured environment-specific API and CORS

Banking Transaction Backend | Node.js, Express.js, MongoDB, JWT, REST APIs GitHub

· Built a Node.js/Express backend for banking transaction workflows using MongoDB and RESTful APIs.

· Implemented authenticated transaction endpoints with request validation and environment-based configuration for sensitive values.

Employee Management System | *React.js, JavaScript, Tailwind CSS, Vite*

- Built a responsive employee-management frontend with reusable React components, dashboard-focused UI, and structured application state.
- Deployed the frontend application and organized the project for maintainable, component-based development.

EDUCATION

Bachelor of Engineering (B.E.) - Electrical Engineering | Amiraj College of Engineering and Technology | 2023
CGPA: 7.3 / 10

TARGET ROLES

Junior Frontend Developer | React.js Developer | Full-Stack JavaScript Developer | Node.js Developer
